

TOWELBUDDY

A127-TB

Picture this: You are on the beach, the sun on your face, a gentle breeze through your hair... and then woosh – there goes your towel again. Blown away, crumpled up or half-buried in the sand. **That exact moment is why the TowelBuddy exists.**

The **TowelBuddy is a flexible band made from recycled materials** that you simply slide over the headrest of your beach chair, camping chair or sunbed. Just tuck your towel underneath and you're all set: no flapping, no fuss and no sand in your face. It's like having a **personal assistant dedicated to keeping your towel perfectly in place**. Whether you're a sun seeker, a poolside relaxer, a camping enthusiast or just someone who loves staying organized: the TowelBuddy makes your day just that little bit easier. It's one of those products that makes you wonder: **"Why didn't I have this sooner?"**
