

Bottlebag Pack Deluxe

BottleBag supports the plastic soup foundation

Five cents of each BottleBag goes to the Plastic Soup Foundation.

The PSF stimulates all possible and innovative solutions that contribute to tackling the plastic soup at the source. The plastic that ends up in the environment and ultimately in the ocean has, in their opinion, the greatest impact on the environment and measures must be taken for this. This includes reducing the amount of disposable plastic by consumers, the development of reducing the plastic footprint by companies and coming up with smart solutions for collecting plastic in natural water.

The BottleBag Pack Deluxe contains a zipper on the side. It reveals a small, extra compartment inside the bag in which it's possible to store small, everyday items.

The drawstrings of the bag have a thickness of one centimetre and are made out of cotton. It makes the bag stronger and there's a very low risk of the strings breaking when the bag is filled up entirely.

We start with the recycling of the PET bottles, which would otherwise end on the garbage-dump

The caps and labels will be removed before shredding the bottles

After shredding, the material will be woven into a fiber

The fiber will be reformed to rolls of fabric

This way, the newly made products find their origin in PET bottles

4 different options
