Hangtag BottleBag
Size 5x12 cm

We start with the recycling of the PET bottles, which would otherwise end up on the garbage-dump.

The caps and labels will be removed before shredding the bottles.

After shredding, the material will be woven into a fiber.

The fiber will be reformed to ribs of fabric.

This way, the ready-made products find their origin in PET bottles.

71% LESS GREENHOUSE GASES:
The production of rPET results in 71% less greenhouse gas emissions compared to the production of virgin PET.

70% LESS ENERGY USE:
The production of rPET requires 70% less energy than the same amount of virgin PET.

90% LESS WATER USE:
The production process of rPET consumes 90% less water than the production process of virgin PET.
