HAND IN HAND**

BioSocks People do more than connect. With every purchase, a helping hand is offered to children in need. **For every 10 pairs sold, one pair of BioSocks People goes to a forgotten child foundation.** In this way, every purchase contributes to a brighter future for children in desperate need.

Hand in hand for a forgotten child.

In Europe hundreds of children grow up in families with serious challenges. They don't receive the attention they need. For forgotten children, it's essential to just be a child. Positive attention allows a child to develop, feel stronger in life, and find their place in society. That is why foundations fight every day to ensure that every child feels loved, heard and seen.
