

SEATOWEL

A127-STO (M/L/XL/G)

The SeaTowel is made of **100% recycled materials**. This durable hammamtowel is developed in collaboration with the SEAQUAL® INITIATIVE. Every year, millions of tons of plastic pollute our oceans. The SEAQUAL® INITIATIVE collects marine plastic waste and transforms it into new, high-quality recycled materials. **By supporting this initiative, we contribute to cleaning up our planet, one towel at a time.** Our SeaTowels are produced in Spain using an eco-friendly process that minimizes environmental impact.

- Eco-friendly production** : No water, paint, bleach or harmful chemicals are used in the production process.
- Upcycled cotton** : We repurpose colored cotton to create new strong, long-lasting yarn.
- Jacquard weaving** : Our high-end machines blend SEAQUAL® YARN and recycled cotton yarn for a beautiful, durable finish.

- MOQ** : 300 pieces.
- Print** : Close to required PMS color.
- Material** : 60% recycled cotton and 40% recycled PET (SEAQUAL® YARN).
- Fabric weight** : 280 grams / m².
- Sizes** : M: 70 x 140 cm / L: 170 x 100 cm / XL: 200 x 100 cm / Giant: 220 x 220 cm.
- HS code** : 63026000.
- Made in** : Spain.

SEAQUAL® INITIATIVE

Plastic is destroying marine life like never before. The SEAQUAL® INITIATIVE cleans oceans and rivers from plastic. The waste is delivered to processing plants where PET bottles are selected. They are cleaned and shredded to obtain small PET chips.

REHEAT PET

Polyethylene terephthalate (PET) has the ability to be reheated and reused easily. The PET chips are reheated and filtered to remove contamination. The result is chopped in smaller similar resins which is a new recycled raw material.

MAKING SEAQUAL® YARN

The recycled PET resins are used to make high quality SEAQUAL® YARN. This yarn is always white. We combine it with recycled cotton to make our SeaTowel and AquaSocks.

TOGETHER WE CAN CLEAN THE OCEANS

WE ARE PARTNER OF THE THE SEAQUAL® INITIATIVE TO MAKE SUSTAINABLE PRODUCTS WITH SEAQUAL® YARN. TOGETHER WE WANT TO FIGHT PLASTIC POLLUTION AND CLEAN OCEANS FROM MARINE LITTER.
